**FOR FURTHER INFORMATION CONTACT:** Superintendent, Pictured Rocks National Lakeshore, at the address and telephone number above.

**SUPPLEMENTARY INFORMATION:** Pictured Rocks is nationally recognized for the geographic and scientifically significant Lake Superior shoreline and related features it encompasses. The area became the first of America's authorized national lakeshores on October 15, 1966. The national lakeshore today encompasses 71,405 acres of land and water. A GMP prepared approved in 1981 currently guides management and development of the national lakeshore. Many provisions of that plan have now been accomplished. A revised GMP is necessary to address changes in resource conditions, knowledge about resources, policies, and laws that have occurred since 1981.

In accordance with NPS Park Planning policy, the GMP will ensure the Memorial has a clearly defined direction for resource preservation and visitor use. It will be developed in consultation with Servicewide program managers, interested parties, and the general public. It will be based on an adequate analysis of existing and potential resource conditions and visitor experiences, environmental impacts, and costs of alternative courses of action.

The environmental review of the GMP/EIS for historic site will be conducted in accordance with requirements of the NEPA (42 U.S.C. 4371 *et seq.*), NEPA regulations (40 CFR 1500-1508), other appropriate Federal regulations, and National Park Service

procedures and policies for compliance with those regulations.
